International Fair Trial Day

The 2026 edition of the International Fair Trial Day will focus on Hungary. In recent years, Hungary has undergone a systematic process of democratic backsliding, marked, among other things, by the progressive undermining of judicial independence and the erosion of fair trial guarantees. The recent political change, however, opens a new chapter: an opportunity for Hungary to reverse course and embark on a genuine process of Rule of Law restoration.

Against this backdrop, the 2026 IFTD Conference will bring together Hungarian and international experts, legal practitioners, and civil society representatives to examine the state of fair trial rights in Hungary and the conditions necessary for a democratic transition.

The conference will conclude with the Ebru Timtik Awards Ceremony, at which an independent jury will present the Award to an individual or organisation who has demonstrated outstanding commitment and sacrifice in upholding the right to a fair trial in Hungary.

AGENDA
